1 The Superintendent's present request amounts to a reconsideration of instruction V. prescribed under para 1 of G.O. No. ~ G.13906-56-G.P. 24-12-11 & 11th June 1915. The spirit of the said Government order is to reduce the regular printing work

in the Govt Press to a minimum.

2. The taking up of private work might interfere with the prompt execution of Govt work, and there would, besides, be the objection of the State entering into competition with Private Printers. It is apparently on these grounds that the sanction of Govt is required to be obtained for undertaking such work.

3. At present, special applications of the kind are dealt with by Govt in consultation with the Supdt Govt Press as to the possibility of such work being undertaken without prejudice to Govt work, in which case alone sanction is accorded.

Submitted for orders.

Under the circumstances now obtaining there is considerable force in the Supdt's arguments & his request to do odd jobs of a limited value without the previous sanction of Govt is very reasonable. —

— But the point is why shd. Govt Press do any work for private individuals or any private work for Govt officers.

SIR,

4 para V of x

I have the honor to state that as per G.O.No.G.13908 -56/G.P.24-12-11 dated 4th June 1915, all works to be executed for private individuals at the Government Press require the previous sanction of Government, irrespective of the amount of cost of such works.

2) Most of these 'private' persons are Officers of Government, of standing and position, who desire to have small jobs done for them at the Press, and such requests cannot possibly be treated with abrupt refusals on account of want of Government sanction. Again, there are other non-official persons, private firms and ~~persons~~ presses who come to the Press for little helps such as sharpening cutting machine knives, stereotyping small pages, wanting the loan of the services of one or two compositors and so on, for which they cannot command the facility, and it would not do to turn a cold shoulder to requests of such minor kinds on the score that sanction of Government is needed for the same.

3) Requests are frequently received direct from the Palace the Dewan, the Councillors, and other Officers of the State, for work required immediately; and, as their servant, I do the work without

without raising any question. I should consider it impertinent on my part to refer such personages to any Government Order. - Common sense directs that the work should be done at once. If I awaited a Government Order under the circumstances, it would be ridiculous. Mention is made of my sharpening knives for local printers without a Government Order. When I asked permission to purchase a knife-grinding machine, one of my reasons given for making the purchase was to help printers who had no means of sharpening their knives. Of course the work is paid for.

4) As the question has been raised during a recent audit of the Press, I would suggest that it may be left to the - - discretion of the Superintendent to do for private individuals small jobs of the kind indicated, costing not more than, say - 50 rupees, and to report monthly, the number of works so done for the information of Government. The cost will, of course, be -- recovered and credited to the Treasury, as is now done.

5) This facility will not only be appreciated by the - General Public but will also be in keeping with the wishes of the Government of His Highness the Maharaja that the Government Press should render help as far as is practicable to those who have not enough facilities to do their own work.

I have the honor to be,

Sir,

Your most obedient servant,

C. A. Yates.

Superintendent,

Government Press.
